PATEL VANSH KIRITBHAI

Computer Engineering Student & QA Intern

CAREER OBJECTIVE

Motivated and detail-oriented Diploma Computer Engineering student seeking a Software Testing Internship opportunity to apply my knowledge of Manual Testing, SQL, and Software Development Life Cycle (SDLC) concepts. Passionate about Software Quality Assurance and eager to contribute to organizational success while continuously enhancing my technical and professional skills.

RESEARCH INTERESTS

- Software Quality Assurance (SQA)
- Test Automation Methodologies & Frameworks

EDUCATION

Diploma in Computer Engineering

2024 — 2027 (Expected)

Shree Swaminarayan Polytechnic, Sector-22, Gandhinagar

University: Gujarat Technological University (GTU)

Current Status: 5th Semester (Pursuing) | **3rd Semester SPI:** 9.14

WORK EXPERIENCE

Software Testing Intern

15 Days

Persist IT Services Pvt. Ltd., Sector-11, Gandhinagar

- Assisted in understanding enterprise software testing processes and quality assurance frameworks.
- Participated actively in software validation, application functionality testing, and defect logging.
- Gained comprehensive exposure to industry practices, Agile frameworks, and real-time environment sprints.
- Enhanced practical execution of testing methodologies, test standardizations, and core bug reporting flows.

ACADEMIC PROJECTS

Air Quality Prediction System

Core Developer / Tester

Academic Research & Development Project

Description: Developed a responsive predictive system aimed at analyzing historical environmental data to forecast air quality indexes, trend insights, and atmospheric pollution levels to back eco-awareness initiatives.

- Collected, formatted, and meticulously analyzed structured project data requirements.
- Performed functional end-to-end testing, validation parameters, and system boundary verifications.
- Identified system exceptions/defects, logged test tracking entries, and verified cross-expected outcomes.
- Prepared clear test scenarios, tracked validation execution metrics, and documented structured observations.

COURSES & CERTIFICATIONS

Key Coursework Completed:

Software Testing, SQL Basics, Manual Testing, Cloud Computing, Modern Web & AI

Professional Credentials:

- **C-DAC Certification** — Center for Development of Advanced Computing (2026)
- **CCC** (Course on Computer Concepts)
- **MIC Certification & CAP Certification**
- **Gemini AI Certification**
